

Safety Data Sheet

acc. to 29 CFR 1910.1200 App D
Iocane Powder

Version number: GHS 3.0
Replaces version of: 2016-07-12 (2)

Revision: 2025-02-17

SECTION 1: Identification

1.1 Product identifier

Trade name	locane Powder
Other Names	locaine Powder
CAS number	Not Assigned

1.2 Relevant identified uses of the substance or mixture and uses advised against

Relevant identified uses Not recommended for any use; highly hazardous.

1.3 Details of the supplier of the safety data sheet

Florin Poison Research Institute
321 Black Vial Lane
Florin City, Kingdom of Florin
Postal Code: FPR-1313
Kingdom of Florin

1.4 Emergency telephone number

Emergency information service CHEMTRAC (800) 424-9300 (AVAILABLE 24 HOURS A DAY)

SECTION 2: Hazard(s) identification

2.1 Classification of the substance or mixture

Classification acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

Section	Hazard class	Category	Hazard class and category	Hazard statement
A.1	Acute toxicity (Oral)	1	Acute Tox. 1	H300
A.1	Acute toxicity (Dermal)	1	Acute Tox. 1	H310
A.1	Acute toxicity (Inhalation)	1	Acute Tox. 1	H330
A.8	Specific target organ toxicity – single exposure	2	STOT SE 2	H371

2.2 Label elements

Labelling acc. to OSHA "Hazard Communication Standard" (29 CFR 1910.1200)

- Signal word **Danger**

Florin Poison Research Institute (FPRI): Iocane Powder

Version number: GHS 3.0
Replaces version of: 2016-07-12 (2)

Revision: 2025-02-17

- Pictograms

GHS06, GHS08, GHS09

- Hazard statements

H300
H310
H330
H371

Fatal if swallowed.
Fatal in contact with skin.
Fatal if inhaled.
May cause damage to organs.

- Precautionary statements

Prevention:

P260: Do not breathe dust or fumes.
P264: Wash hands and exposed skin thoroughly after handling.
P270: Do not eat, drink, or smoke when using this product.
P280: Wear protective gloves, protective clothing, eye protection, and face protection.

Response:

P301+P310: IF SWALLOWED: Immediately call a POISON CENTER or doctor.
P302+P350: IF ON SKIN: Gently wash with soap and water. Seek immediate medical attention.
P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing.
P310: Immediately call a POISON CENTER or doctor/physician.

Storage:

P405: Store locked up.

Disposal:

P501: Dispose of contents/container in accordance with local and national regulations.

2.3 Other hazards

Iocane Powder is known for being nearly undetectable by standard methods of chemical analysis. Some members of Royalty have been known to be able to detect trace amounts, with at least one sovereign betting their life on it. Symptoms of poisoning are delayed but lead to rapid fatality. No known antidote exists, though in rare cases immunity through repeated low dose exposure has been rumored.

SECTION 3: Composition/information on ingredients

3.1 Substances

Name of Substance

Iocane Powder

Chemical Formula: Unknown

SECTION 4: First-aid measures

4.1 Description of first-aid measures

Inhalation:

Remove victim to fresh air immediately. Seek emergency medical attention. Symptoms may be delayed but are rapidly fatal.

Skin Contact:

Remove contaminated clothing immediately. Wash skin with soap and water. Do not wait for symptoms to appear—seek medical help at once.

Eye Contact:

Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing and seek medical attention.

Ingestion:

Do NOT induce vomiting. Immediate medical intervention is required. Fatal even in small doses.

SECTION 5: Fire-fighting measures

5.1 Extinguishing media

Suitable extinguishing media

Dry chemical, CO₂, foam.

Unsuitable extinguishing media

Water spray may spread contamination.

5.2 Special hazards arising from the substance or mixture

Combustion may produce toxic fumes.

5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes. Coordinate firefighting measures to the fire surroundings. Do not allow firefighting water to enter drains or water courses. Collect contaminated firefighting water separately. Fight fire with normal precautions from a reasonable distance.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid contact with skin, eyes, and clothing. Do not breathe dust or vapor.

Evacuate area if necessary and ensure proper ventilation.

6.2 Environmental precautions

Do not allow product to enter waterways or soil. Contact hazardous waste authorities for proper disposal.

6.3 Methods and material for containment and cleaning up

Advice on how to contain a spill

Carefully sweep up using a specialized hazardous materials vacuum or damp cloth. Dispose of safely according to regulations.

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Recommendations

Handling:

Use only in well-ventilated areas or fume hoods. Avoid direct contact.

Storage:

Store in a secure, poison-designated area, away from food and water supplies. Keep container tightly sealed.

SECTION 8: Exposure controls/personal protection

8.1 Exposure Limits

No occupational exposure limits established.

8.2 Engineering Controls

Use local exhaust ventilation or fume hoods to prevent exposure.

8.3 Personal Protective Equipment

Individual protection measures (personal protective equipment) Eye/face protection

Skin protection

Hand Protection: Chemically resistant gloves (nitrile, neoprene).

Eye Protection: Safety goggles or face shield.

Skin Protection: Full-body chemical-resistant suit.

Respiratory protection

NIOSH-approved full-face respirator with chemical cartridges.

SECTION 9: Physical and chemical properties

9.1 Information on basic physical and chemical properties

Appearance

Physical state	Powder
Color	White
Odor	None

9.2 Other safety parameters

pH (value)	Neutral
Melting point/freezing point	Unknown
Evaporation rate	Not determined
Flammability (solid, gas)	not relevant
Vapor pressure	Negligible
Density	Not determined
Relative density	Not Determined
Solubility	Highly soluble

SECTION 10: Stability and reactivity

10.1 Reactivity

Highly toxic upon contact with biological tissues.

10.2 Chemical stability

Stable under normal conditions.

10.3 Incompatible materials

Strong acids, bases, oxidizers.

10.4 Hazardous decomposition products

Emits toxic fumes when heated.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

Routes of Exposure:

Inhalation, skin contact, ingestion.

Acute Toxicity:

Estimated LD50 (Oral, Human): Less than 1 mg/kg

Estimated LD50 (Inhalation, Human): Less than 0.01 mg/L Estimated LD50 (Dermal, Human): Less than 5 mg/kg

Symptoms of Exposure:

Delayed onset of effects followed by rapid onset of fatal symptoms. Initial signs include dizziness, confusion, numbness.

Progresses to respiratory failure, seizures, and cardiac arrest.

Chronic Effects: No known survivors for long-term studies. (Though rumors persist of one individual being immune.)

SECTION 12: Ecological information

12.1 Toxicity

Extremely hazardous to wildlife.

12.2 Persistence and degradability

Unknown but presumed to be highly persistent.

12.3 Bioaccumulative potential

Unknown, likely bioaccumulative. Long-term micro-dose ingestion has led to at least one case of immunity.

12.4 Mobility in soil

High solubility suggests potential groundwater contamination risk.

SECTION 13: Disposal considerations

13.1 Disposal methods

Incinerate in a licensed hazardous waste facility.

Sewage disposal-relevant information

Do not empty into drains. Do Not release to the environment.

SECTION 14: Transport information

14.1 UN/NA Number

DOT	UN 2811
-----	---------

14.2 UN proper shipping name

DOT	Toxic solid, organic, n.o.s.
-----	------------------------------

14.3 Transport hazard class(es)

DOT	Class 6.1 (Toxic Substances)
-----	------------------------------

14.4 Packing group

DOT	I
-----	---

14.5 Special Precautions

Secure, labeled containers.

SECTION 15: Regulatory information

15.1 GHS Classification: Acute Toxicity Category 1

EPA/OSHA Regulations: Not registered, but extreme caution is advised.

Florin Poison Research Institute (FPRI): Iocane Powder

Version number: GHS 3.0
Replaces version of: 2016-07-12 (2)

Revision: 2025-02-17

SECTION 16: Other information, including date of preparation or last revision

Notes:

- o No known antidote. Immediate medical attention is critical.
- o Historical references suggest this substance is nearly undetectable in standard toxicology screenings.

Prepared By: FPRI (Florin Poison Research Institute)

Revision Date: 02/17/2025

Disclaimer

This SDS is for entertainment purposes only. Iocane Powder does not exist in the real world. Stay safe, and never engage in battle of wits with a Sicilian when death is on the line!
